Chip Tec, LLC is a certified small business manufacturing company located in Decatur, Alabama 25 miles from the United States Army's Redstone Arsenal with close proximity to major interstate highways, inter-modal and air transport infrastructure.

We pride ourselves in Precision Machine Work that we have been doing for more than 35 years. We have been recognized by Inc Magazine consecutive years for being one of the fastest growing privately held companies in America. In addition we have received numerous performance awards from customers and our founder has been named Business Man of the Year by the Decatur Chamber of Commerce.

Chip Tec is a diverse company with a history of commercial and military related work. We take great pride in our 40,000 square foot manufacturing facility which houses some of the finest CNC machinery available.

We are proud of the clean, safe working environment we are able to provide for our production team members. Central coolant, chip recovery, and mist collection systems allow us to operate in a clean and economical manner. We believe in the practice of 5 S and our shop layout encourages efficiency by optimizing material flows and space utilization therefore minimizing waste. These practices lead to improved lean manufacturing.

We recognize the importance of our equipment and facilities, but our team of employees is the key to the success of Chip Tec. We have a long history of employing experienced, sharp, motivated and an enthusiastic workforce who recognizes the importance of going above and beyond for every customer, every time!

CHIPTEC IS A WOMAN OWNED SMALL BUSINESS
